LIMITED WARRANTY

To the consumer, Guardian Technologies LLC warrants this product to be free of defects in materials or workmanship commencing upon the date of the original purchase. In order to be eligible for this Limited Warranty, an original sales receipt or comparable substitute proof of purchase bearing the date of original purchase is required. Refer to the original product carton or specific product/model page on the Guardian Technologies website for warranty length for your particular model. This warranty applies only to the original purchaser of this product from the original date of purchase. This warranty covers product purchased from authorized distributors only.

This warranty applies to repair or replacement of product found to be defective in materials or workmanship. This warranty does not apply to damage resulting from unusual wear, commercial, abusive, unreasonable use or supplemental damage. This warranty does not cover damage from unauthorized repairs or from any use not in accordance with the instruction manual. Defects that are the result of normal wear and tear will not be considered manufacturing defects under this warranty.

If this product should become defective within the warranty period, we will repair or replace any defective parts free of charge. All warranty repairs must be completed by Guardian Technologies LLC. This warranty gives you specific legal rights and you may also have other rights (other rights may vary from state to state in the U.S.A.)

To submit product under warranty the complete machine must be delivered pre-paid to Guardian Technologies LLC. Please include complete information including: the problem, the model number of the product, the day of purchase, and a copy of the original sales receipt along with your name, address, and telephone (email optional). Address returns to the attention of: Customer Service, at the address below. Additional questions or comments can be made toll free to the number listed below.

READ AND SAVE THESE INSTRUCTIONS

WARNINGS

Failure to comply with the warnings listed below may result in electric shock or serious injury.

This product should be used only in accordance with the specifications outlined in this manual. Usage other than what has been specified here may result in serious injury.

When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock and injury to persons, including the following:

• Read all instructions before using appliance.
• IMPORTANT - This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of electric shock, this plug is intended to fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not attempt to defeat this safety feature.
• To avoid fire or shock hazard, plug the appliance directly into a 120V AC electrical outlet.
• Keep the cord out of heavy traffic areas. To avoid fire hazard, NEVER put the cord under rugs, near heat registers, radiator, stoves or heaters.
• To protect against electrical hazards, DO NOT immerse in water or other liquids. Do not use near water.
• Children cannot recognize the hazards associated with the usage of electrical appliances. For this reason, always supervise children when they are near the unit.
• Always unplug the air purifier before moving it, opening the grill, changing filters, cleaning or whenever the air purifier is not in use. Be sure to pull by the plug and not the cord.
• NEVER drop or insert any object into any openings.
• DO NOT run cord under carpeting.
• DO NOT cover cord with throw rugs, runners, or similar coverings.
• DO NOT route cord under furniture or appliances. Arrange cord away from traffic area and where it will not be tripped over.
• DO NOT operate any appliance with a damaged cord or plug, if motor fan fails to rotate, after the appliance malfunctions, or if it has been dropped or damaged in any manner. Call Customer Service at 1.866.603.5900 for assistance.
• Use appliance only for intended household use as described in this manual. Any other use not recommended by the manufacturer may cause fire, electric shock or injury to persons.
• DO NOT use outdoors.
• DO NOT place anything on top of unit.
• NEVER block the air openings, grills/outlets or place on a soft surface such as a bed or sofa, as this could cause the unit to tip over, blocking the air intake or outtake opening.
• DO NOT attempt to repair or adjust any electrical or mechanical functions on this unit. Doing so will void your warranty. The inside of the unit contains no user serviceable parts. All servicing should be performed by qualified personnel only.

• WARNING: To reduce the risk of fire or electric shock, do not use this fan with any solid-state speed control device.
• WARNING: Skin or eye damage may result from directly viewing the light produced by the lamp in this apparatus. Always disconnect power before replacing lamp or servicing. Replace Lamp With Lamp Model No. LB4000, Manufactured by Guardian Technologies.
• Always unplug the unit before before cleaning or servicing in any way.
• CAUTION: Do NOT use gasoline, benzene, thinner, harsh cleaners, etc. on and/or in the unit while cleaning as they will damage the product. NEVER use alcohol or other solvents.

The 8 hour TWA Ozone for this product is 0.001 ppmv when tested in a 30 m³ chamber. The product complies with the maximum allowable concentration of ozone of 0.050 parts per million by volume (ppmv) in a 24-hour period. The Health Canada Guideline 2010 recommends that the maximum exposure limit, based on averaging time of 8 hours, is 0.020 ppmv or less when tested in a sealed, controlled room approximately 30 m³.

WARNING: Cancer or Reproductive Harm. For more information go to www.P65Warnings.ca.gov.

LAMP CONTAINS MERCURY

Manage in accordance with Spills, Disposal and Site Cleanup Requirements. In case of breakage, follow clean-up procedures provided by contacts below.

AC5350 Series Control Panel

REPLACEMENT PARTS

FILTER:
- Pre-Filter and Carbon Filter are combined into one layer that attaches to the Filter.

AIR CLEANING SYSTEM

Pre-Filter - Captures initial dust and allergen particles.
Activated Carbon Filter - Charcoal/Activated Carbon contributes to the control and prevention of the growth of bacteria, germs and mold.
UV-C Light - UV-C light technology works with Titanium Dioxide (TiO²) to enhance the elimination of airborne germs. TiO² is activated by the UV-C light to decompose remaining odor molecules caused by smoking, cooking and pets.

*Pre-Filter and Carbon Filter are combined into one layer that attaches to the Filter.
OPERATING INSTRUCTIONS

BEFORE OPERATING THE AIR PURIFIER:
1. Select a firm, level and flat location for the air purifier.
* For proper air flow, locate the unit at least 1 foot from any wall or furniture.
* Make sure none of the grills are blocked.
2. Plug the power cord into a 120V AC outlet.

IMPORTANT: When moving the air purifier, always lift unit by the carrying handle located on back.

OPERATING THE AIR PURIFIER (AC5300 SERIES):
1. Turn unit power ON. To turn OFF, press and hold button for 3 seconds.
2. Select fan speed MODE 1 - 3
   1 = low, ultra quiet sleep mode
   3 = high
3. Select UV-C ON or OFF using UV-C Mode Button.

Filter Replacement Indicator: The Replace HEPA light on the control panel will illuminate and flicker indicating that it is time to replace your filter. Replace the filter according to directions (E-7) then press and hold the UV Mode button for 3 seconds to reset the system.

UV Bulb Replacement Indicator: The circular blue light on the front panel of the purifier will flicker when it’s time to replace the bulb. Replace the bulb according to directions (E-8), then press and hold UV Mode button for 3 seconds to reset the system.

OPERATING THE AIR PURIFIER (AC5350 SERIES):
1. Turn unit power ON.
2. Select fan speed MODE 1 - 5
   1 = low, ultra quiet sleep mode
   5 = high speed allergen control - Default setting is 5
3. Select UV-C ON or OFF using UV-C Mode Button.
4. TIMER: If you prefer to run the purifier for a specific number of hours, you can select between 1 and 8 hours on the display.

Filter Replacement Indicator: The Replace HEPA light on the control panel will illuminate and flicker indicating that it is time to replace your filter. Replace the filter according to directions (E-7) then press and hold the Timer Set button for 3 seconds to reset the system.

UV Bulb Replacement Indicator: The circular blue light on the front panel of the purifier will flicker when it’s time to replace the bulb. Replace the bulb according to directions (E-8), then press and hold UV Mode button for 3 seconds to reset the system.

CHECKING AND MAINTAINING FILTER

Maintain the filter by checking it frequently. Depending on air quality conditions, you may need to replace it more frequently. Vacuum the carbon filter layer as needed to remove loose debris and dust and to help prolong the life of your filter.

To check the status of the filter, peel back the carbon layer to expose the pleated filter. If the filter is no longer white and is covered in grey dust/dirt it should be replaced.

IMPORTANT: Do NOT try to wash and re-use the Combination Filter.

IMPORTANT: To maintain the performance of the air cleaner, use Guardian Technologies GENUINE Replacement Parts only.
## INSTALLING & REMOVING UV-C BULB

**UV Bulb Replacement Indicator:** The UV light on the display will flash when its time to replace the UV bulb.

1. Turn off and unplug unit. Press the lock and release button and remove the rear cover from the unit.
2. Remove the combination filter.
3. Use a Philips head screwdriver to remove 2 screws and detach the UV-C Metal Shield.
4. The UV-C Bulb is removed by carefully grasping the bulb with a clean cloth or tissue and pulling the bulb straight out of the unit.
5. The UV-C Bulb is reinstalled by sliding it, horizontally, back into the slots at the top of the unit.

**NOTE:** Do NOT stick any foreign objects or your fingers inside of the unit.

**CAUTION:** Do NOT use gasoline, benzine, thinner, harsh cleaners, etc. on and/or in the unit while cleaning as they will damage the product.

**NEVER** use alcohol or other solvents.

### What is CADR?

CADR stands for “Clean Air Delivery Rate,” which indicates the volume of filtered air delivered by an air purifier. CADR ratings show the effectiveness of how efficient the air purifier is at capturing fine particles from things like tobacco smoke and plant pollens from the room.

### Clean Air Delivery Rate

From air cleaner to air cleaner, compare the CADR numbers. First look at suggested room size. Then refer to the Clean Air Delivery Rate (CADR) numbers. The higher the number, the faster the unit filters the air.

Refer to website for individual model CADR numbers.
